Address: C. de Mariano Esquillor Gómez, 50018, Zaragoza, Spain

Assistant Professor and Doctor in Computational Imaging at Universidad de Zaragoza (Spain)

Education

Nov 2021 - Jul 2026 — **Universidad de Zaragoza, *Doctor in Computational Imaging with International mention and Cum Laude***
PhD studies supervised by Adolfo Muñoz and Diego Gutierrez. On computer graphics, computational imaging, Non-Line-of-Sight imaging, and transient imaging. 175 hours of experience in teaching undergraduate and master's students with a highly positive assessment.

Sep 2019 - Dec 2020 — **Universidad de Zaragoza, *Master's Degree***
Master's Degree in Computer Engineering. Average grade: 8.25 out of 10

Sep 2014 - Sep 2018 — **Universidad de Zaragoza, *Bachelor's Degree***
Bachelor's Degree in Computer Engineering with a major in Computing. Average grade: 7.64 out of 10

Research Experience

Apr 2024 - Jul 2024 — **University of Wisconsin-Madison, *International Internship***
International internship under the supervision of prof. Andreas Velten at the University of Wisconsin-Madison, and in collaboration with the Computational Optics Group. The research focuses on pushing the boundaries of NLOS imaging for looking around corners.

Nov 2021 - Jul 2026 — ***Graphics & Imaging Lab* (Universidad de Zaragoza - I3A), *as PhD candidate***
PhD candidate under the supervision of Prof. Adolfo Muñoz and Prof. Diego Gutierrez. The research focuses on transient illumination, looking around corners, and virtual wave optics. Funded by *Ministerio de Ciencia e Innovación (Gobierno de España)* with the competitive grant FPI 2020. *Taught 175 hours of teaching to undergraduate students with a highly positive assessment.*

Jan 2021 - Jun 2021

Universidad de Zaragoza, *Research project collaboration*

E. Coli bacteria simulation for the production of citramalate in the *Instituto Universitario de Investigación en Ingeniería de Aragón (I3A)*. Detailed achievements:

- Learned how to use a cluster for heavy simulations.
- Acquired experience with the design and implementation of virtual cell models.

Sep 2019 - Dec 2020

Universidad de Zaragoza, *Research Project Intership*

Design and implementation of a system for the automatic analysis of the drone sperm cells of drones (honey bees). Funded by a competitive scholarship granted by the *Gobierno de Aragon*, in the *Instituto Universitario de Investigación en Ingeniería de Aragón (I3A)* for the Master Thesis Project.

Publications

Journals

SJR Q1

Non-Line-of-Sight in the Presence of Scattering Media

Pablo Luesia, Miguel Crespo, Adrian Jarabo, and Albert Redo-Sanchez. Optics Letters 47.15 (2022): 3796-3799.

DOI: https://doi.org/10.1364/OL.463296

SJR Q1

Cohesive Framework for Non-Line-of-Sight Imaging based on Dirac Notation

Albert Redo-Sanchez, Pablo Luesia-Lahoz, Diego Gutierrez, Adolfo Muñoz. Optics Express 32.6 (2024): 10505-10526.

DOI: https://doi.org/10.1364/OE.518466

SJR Q2

Stereo Non-Line-of-Sight Imaging

Pablo Luesia-Lahoz, Sergio Cartiel, Adolfo Muñoz. The Visual Computer (2026) 42:148

DOI: https://doi.org/10.1007/s00371-025-04340-7

Conference

Core B

Zone Plate Virtual Lenses for Memory-Constrained NLOS Imaging

Pablo Luesia-Lahoz, Diego Gutiérrez, and Adolfo Muñoz. ICASSP 2023 - 2023 IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP), Rhodes Island, Greece, 2023, pp. 1-5

DOI: https://doi.org/10.1109/ICASSP49357.2023.10094929

Core B

Zero-Phase Phasor Fields

Pablo Luesia-Lahoz, Talha Sultan, Forrest B. Peterson, Andreas Velten, Diego Gutierrez, Adolfo Muñoz. 2025 IEEE International Conference on Computational Photography (ICCP), Toronto, ON, Canada, 2025, pp. 1-9

DOI: https://doi.org/10.1109/ICCP64821.2025.11143850

Teaching and Supervision

Teaching

Experience of 391 hours at the University of Zaragoza (*Universidad de Zaragoza*):

2022 - 2025

Computer Graphics (158 hours)

Degree on Computer Sciences Engineering. Received an outstanding positive assessment from the students.

2024 - 2025

Fundamentals of Computing (7.5 hours)

Master's in Robotics, Graphics and Computer Vision at the University of Zaragoza *(Universidad de Zaragoza)*. Received an outstanding positive assessment from the students.

2022 - Present

Fundamentals of Computing (36 hours)

Degree in Industrial Technology Engineering

2025 - 2026

Programming I (12 hours)

Degree in Computer Engineering

2025 - 2026

Programming II (30 hours)

Degree in Computer Engineering

2025 - 2026

Computational Imaging (34 hours)

Master's in Robotics, Graphics and Computer Vision at the University of Zaragoza *(Universidad de Zaragoza)*

2025 - Present

Fundamentals of Computing (60 hours)

Degree in Chemical Engineering

2025 - Present

Informatics (54 hours)

Degree in Industrial Development and Industrial Design

Current Students

Present

Ming Tao Ye

Internship "On the Rendering of Optical Transparency".

Former students

2024

Jorge Solán Morote

Bachelor thesis. "Simulation of ultra-fast photon capture hardware in light transportation." Graded with a 9 out of 10.

2023

Isaac Velasco

Internship "Geometry optimization using normal information in Non-Line-of-Sight imaging".

2023

Ayush Gupta

Internship "Evaluation of the Fourier components in a Transient Signal".

Divulgation activities

8-11 Aug 2022

Attendance to ACM SIGGRAPH 2022

Presentation of the poster "Non-line-of-sight Transient Rendering".

30 Sep 2022

European Researchers' Night

Divulgation experiments for a general public of all ages: "Create your own virtual character".

15 July 2023

***XII* Jornada de Jóvenes Investigadores/as**

Presentation of the poster "Zone Plate Virtual Lenses for Memory-Constrained NLOS Imaging".

29 Sep 2023

European Researchers' Night 2025

Divulgation experiments for a general public of all ages: "Create your own virtual character", "Learn about Virtual Reality", and "How is color composed?".

18-22 Mar 2024

XV Engineers Week

Divulgation activities for a high-school public to present the research of the Graphics & Imaging lab.

20 Mar 2024

XII Aragon Girls' Day

Divulgation activities in collaboration with the Graphics & Imaging lab to a high-school-aged public focused on making visible the researcher women.

21-23 July 2025

Presentation in ICCP conference

Attendance and presentation of our work "Zero-Phase Phasor Fields for Non-Line-of-Sight Imaging" in the 2025 IEEE International Conference on Computational Photography (ICCP) held in Toronto, ON, Canada.

26 Sep 2025

European Researchers' Night 2025

Divulgation experiments for a general public of all ages.

Volunteer Experience

2014 - present

Aragón (Spain), Free Time Monitor

Experience in camps with kids from 8 to 16 years old. Approved Free Time Monitor Title by the Instituto Aragones de la Juventud (IAJ), in Spain.

Other interest data

Programming languages

- Java
- C++
- Python
- Matlab
- Haskell
- ProLog

Languages

- **Spanish** Mother language
- **English** Advanced (CERT C1 certificate emitted by the British Council with the Aptis ESOL)
- **French** Basics

Mobility

- Erasmus stay in Sweden for 6 months (Jan 2019 - Jun 2019).
- Internship in Madison (Wisconsin) for 3 months (May 2024 - July 2024).

Interests

Professional

Research in the computational imaging field, transient luminescence and rendering, non-line-of-sight and virtual wave optics

Personal

Cooking, rock climbing, reading, guitar, drawing
